POWELL®

Powell Decks *are manufactured in our Santa Barbara, California, wood shop, so we can optimize every element of the manufacturing process. We use special Powell designed and built low pressure AirLam™presses to laminate 7 plys of the finest grade American hard rock maple, with a special high impulse, water resistant glue. Each deck is then sealed against moisture with a water base acrylic semi-gloss finish and given an additional coat of clear water base acrylic to add additional protection. We precisely control the thickness and moisture content for optimum performance. All Powell decks are warranteed against delamination for the useful life of the deck.*

Powell Pro K-12 Brite-Lite Decks

Steve Caballero Hot Rod - S.O.C.#124, K-12, 7.5" x 31.375"

Rodney Jones Dead Cat - S.O.C.#138, K-12, 7.5" x 31.875"

Pat Channita Evil Penguin - S.O.C.#126, K-12, 7.625" x 31.625"

Danny Wainwright Paint Can - S.O.C.#112, K-12, 7.75" x 31.75"

Team Street K-12 Brite-Lite Decks

Team Street Green - S.O.C.#138, K-12, 7.5" x 31.875"

Team Street Yellow - S.O.C.#136, K-12, 7.875" x 31.75"

Powell Pro K-i11 Tough-Ply Decks

Steve Caballero Hot rod - S.O.C.#131, K-i11, 7.875" x 31.625"

Rodney Jones Dead Cat - S.O.C.#154, K-i11, 7.75" x 31.75"

Pat Channita Evil Penguin - S.O.C.#136, K-i11, 7.875" x 31.75"

Danny Wainwright Paint Can - S.O.C.#126, K-i11, 7.625" x 31.5"

Team Street K-i11 Tough-Ply Decks

Team Street Blue - S.O.C.#124, K-i11, 7.5" x 31.375"

Team Street Gray - S.O.C.#126, K-i11, 7.625" x 31.5"

SEVEN PLIES OF 100% AMERICAN HARD ROCK MAPLE. MANUFACTURED BY SKATE ONE CORP. SANTA BARBARA, CALIFORNIA, U.S.A. skateone

Decks

Powell Classic Spoon Nose Decks *are close reproductions of their 1980's counterparts, featuring top graphics and a mellow spoon, non-kick-nose concave.*

Powell Classic K-10 Concave Decks *incorporate classic Powell graphics with very functional contemporary shapes. K-10 classics feature a longer wheel base and a deeper, kick nose concave.*

Caballero Chinese Dragon Spoon Nose - 10" x 30"

Steve Steadham Skull & Spade Spoon Nose - 10" x 30"

Vato Rat Bones Spoon Nose - 10" x 30"

Skull & Sword Red - S.O.C.#135, K-10, 9.5" x 32.75"

Ripper Silver - S.O.C.#144, K-10, 10" x 31.75"

Powell Original Logo - S.O.C.#145, K-10, 10" x 32.25"

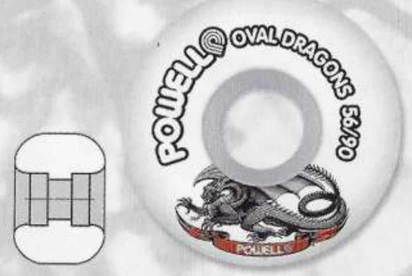

Hot Rod Black/Blue Flames - S.O.C.#94, K-10, 9.375" x 33.75"

SEVEN PLIES OF 100% AMERICAN HARD ROCK MAPLE. MANUFACTURED BY SKATE ONE CORP. SANTA BARBARA, CALIFORNIA, U.S.A.

Wheels

Powell Classic Wheels are made in the USA at our wheel manufacturing facility using our superior urethane technologies. Powell Classic formulas marked with a Shore A hardness are ultra high rebound, controlled grip & long lasting. Wheels poured in "P.F." formula are unequaled in park terrain or where you need both maximum speed and traction. "P.F." is hard, fast, grippy and extremely long lasting. AT-80 formula wheels are excellent for rougher terrain. Wherever you skate, Powell Classic wheels keep you rolling smoothly.

BONES BEARINGS®

www.bonesbearings.com

Bones Swiss bearings have the best reputation in the skateboard industry, and have had this honor for the past 20 years because of their performance and quality. Everyone who rides Swiss knows how fast they are, and most also comment on how long they last, typically several times as long as low cost bearings. Skaters who use Bones Swiss do so because they want the very best equipment they can get and they know the difference between ordinary and exceptional. Check out our bearing team, it is a who's who of top skaters and we are proud to be associated with each one of them.

55 x 34mm SPF

58 x 37mm SPF 60 x 40mm SPF
62 x 40mm SPF

What is SPF?

Skatepark Formula (SPF) is top quality urethane specifically formulated to resist flatspotting on slick and smooth surfaces while maintaining a higher rebound for a quicker response and a faster roll. SPF also has a high resistance to abrasion but does not compromise hardness and a slide-ability. Simply put... SPF wheels grip better on slick surfaces, are almost impossible to flatspot and are the fastest, longest lasting wheels on the market today.

ATF Core

I ♥ Soft Core 26637

What is ATF?

Bones SoftCore wheels are poured in a special soft urethane we call ATF, or All Terrain Formula. SoftCore wheels are excellent for rougher terrain. Whether skating the local ditch, or pushing to the store on streets that slipped through the cracks of the city's repaving budget, ATF wheels will roll you there quickly & smoothly

HARDCORE BUSHINGS

Bones HardCore Bushings

Combine legendary Bones urethanes bonded to a "hat-shaped" rigid insert to create the first and only "double action" bushing. Bones Bushings provide a smoother, quicker responding, more controllable, stable ride on any truck you install them on.

Hard

HardCore Bushings provide high resistance to turning throughout the entire turning range and ultra quick response.

Medium

HardCore Bushings are formulated for the majority of skaters who already have good control of their board and just want quick, positive response, centering and the control to skate anything or anywhere.

Soft

HardCore Bushings provide very easy turning, quick, smooth response and good centering. We recommend them for skaters who like their trucks loose, but not "floppy". We also recommend them for longboarders and little skaters for whom a soft HardCore will feel like a medium or firm bushing.

MINI•LOGO™ DECKS

Mini•Logo™ Decks are manufactured from the same raw materials and in the same unique "AirLam" presses as our top of the line Powell decks. The only difference is the graphics. We offer the most popular shapes and concaves at a fraction of the price, with a life-long warranty. Mini•Logo decks come in seven assorted full-length roll-coated colors with an added layer of SST super slide treatment. Mini•Logo decks are truly "the best for less."

SUPERLIGHT™ DECKS

Mini•Logo SuperLight™Decks are thinner and lighter than our regular Mini•Logo decks with a deep K-12 concave to keep them stiff. The bottom is coated with a full length solid ink color in red, black, silver, white or forest green with our SST™ super slide treatment for extended slides.

** Highlighted shapes on the chart to the right are available in SuperLight construction.*

Concave Code Descriptions

K-7 Concave: Mild, smooth concave. Mellow nose and tail.
Ki11 Concave: Deep concave. Flat nose and tail.
K-12 Concave: Deepest concave. Steep flat nose and tail.
K-12s Concave: Deepest concave. Steep flat nose and tail & short wheelbase for smaller skaters.

MINI•LOGO™ BEARINGS

10-Pack POP

64 set bulk box (512 bearings)

32 set bulk boxes (256 bearings)

Mini•Logo Bearings are skate rated, precision 608 bearings made to Skate One specifications.These bearings were designed for skating, not electric motors.They have a removable rubber shield on one side, a removable metal shield on the other, a high speed, molded ball retainer, precision ground and super-finished, hardened chromium steel races and balls, and come pre-lubricated with Bones Speed Cream. This makes them smooth, fast, easy to install and maintain. Mini•Logo bearings, twice the performance and half the price you would expect.

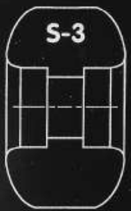

COMPLETE

Mini•Logo Completes are fully assembled, ready to ride skateboards. We choose only our most popular deck shapes, and set them up with Tracker trucks, Mini•Logo bearings, 54mm Mini•Logo wheels, Wooster grip tape and Powell hardware. Mini•Logo completes come in assorted colors.

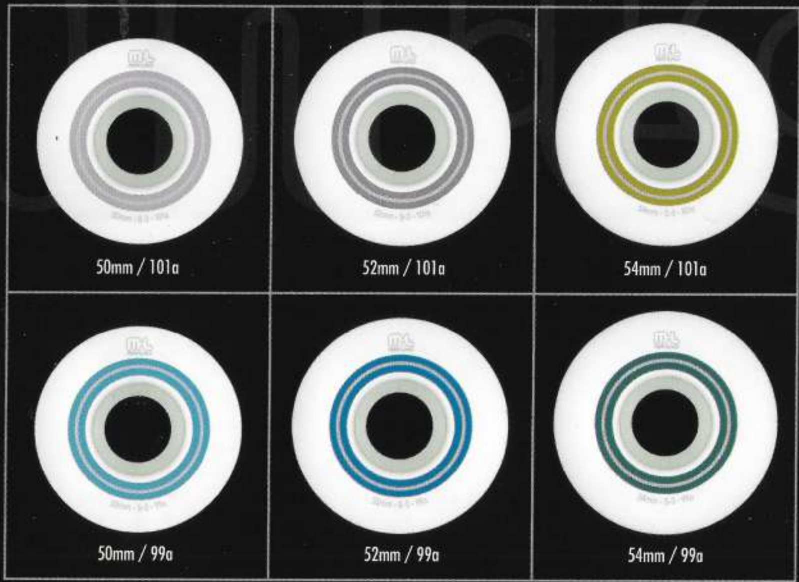

MINI•LOGO™

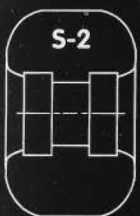

Mini•Logo™ Wheels: are made in the USA at our wheel manufacturing facility using our superior urethane technologies. Mini•Logo wheels combine top quality, high performance urethane with simple graphics, and a popular range of shapes, sizes and hardnesses. Performance and value, guaranteed.
